## **NEW N**EW YORK TO BE LAUNCHED ON OCTOBER 30

Super-Dreadnought and the Texas Will Be Biggest Battleships Afloat.

PRESIDENT EXPECTED.

First to Carry Fourteen-Inch Guns, of Which There Is a Battery of Ten.

The new New York, super-Dreadnought of the heaviest type and with the Texas the first battleship to carry guns of 14fuch, .45 callbre, is being touched up for her launching from the construction dock at the New York Navy Yard a week from to-morrow-Wednesday, Oct.

She will have ten of these 14-inch guns. mounted along her centre line and able to deliver a broadside on either side of the ship.' To carry the weight of such big guns, together with their protective rets and heavy mounting platforms and swivels, she was built 57 feet longer than the Florida and with 27,000 tons displacement, which is 1,000 tons more than the Arkansas or the Wyoming. The New York and her sister ship the

affoat in the world when they go into DIMENSIONS OF THE GIANT BEA FIGHTER.

Texas will be the biggest battleships

Here are a few of the figures about the biggest battleship: Length on designer's water line, 565 feet; breadth, extrame, at designer's water line, 56 feet 25-8 inches; mean trial displacement. 27,000 tons; mean draught, 28 feet 6 inches; coal bunker capacity, 2,800 tons; fuel oil storage capacity, 400 tons; and speed on trial not less than 21 knots an

The New York will cost about \$6,000,one. Her keel was laid in September, 1911, and when the big hull slides into the water a week from to-morrow she will be about & per cent. complete, according to the naval constructors.

She is not due to be finished until May, 1814, but the men who have her construction and equipment in hand esy that they will beat that time by

Naval Constructor Robert M. Stocker the constructor in charge, will be the method of launching, and when it is

up to the time the new mayal monster tice Mayo in the Children's Court.
